

# COMBINATION TANKS

## FUEL/HYDRAULIC

Normal steel and Aluminium Alloy

IN ACCORDANCE TO UN/ECE 34

Combination tanks is the solution when weight and space are limited.

Each tank is singularly tested and guaranteed. Particularly the inside baffle, designed for heavy duty applications, undergoes a double pressure test.

In order to complete tank with the correct brackets, suction pipes and level gauge, please inform us which make of vehicle the tank will be fitted to.

Return filter can be ordered separately.

### HYDRAULIC PART

- filler/breather
- flange for return filter
- added ventilation
- level indicator
- 1"1/2 female feed adaptor
- 1" female return adaptor
- drain purge M22x1,5 with cap

### FUEL PART

- anti-steam device
- filler cap
- 2 flanges for suction pipes and level gauge
- drain purge M22x1,5 with cap
